NEW LOWER RATES! INCREASED CABLE VALUE!

Our new lower rates, effective 9/1/93, are listed in detail below. And not only are we lowering prices, we're *expanding* basic services. Limited Basic has been expanded to include channels 1 - 20, 27 and 30 - 32. Tier One has expanded to include channels 33 - 55, formerly available only on Tier Two (which will be discontinued). When you subscribe to both Limited Basic and Tier One, this is known as our "Basic Plus Package." The new cost for this package is \$22.11 (previously \$24.70), a **savings of \$2.59!**

The good news gets better! Jones Spacelink will no longer charge a monthly fee for additional outlets. They are now **FREE, a savings of \$5.00 per outlet.** Also, we are dropping the monthly \$3.00 remote control fee. Jones Spacelink will no longer offer new remote controls to our customers. If you already have a remote control, it will keep right on working; the only difference will be that now it is yours to keep . . . **FREE!**

There will be a new minimal monthly fee for each converter box in your home. These boxes allow you to receive Pay Per View and Premium Channels today, and to access future technology as it becomes available.

What do all these changes mean to you? Every customer's bill will be affected differently and almost all Jones Spacelink customers will realize significant savings. Please look over the new rates to see how they will affect you. While savings depend upon your current level of service, you can see that your cable dollar now goes farther than ever!

Addition of Premium Service	\$ 4.95

FREE TELEVISION AND THE NEW CABLE REGULATIONS. . . THE ISSUE YOU NEED TO KNOW ABOUT!

One of the many benefits of being a cable subscriber is receiving an improved picture on network and local broadcast stations. Today, a part of the 1992 Cable Act gives broadcasters within a cable system's reach the ability to choose either "must carry" or "retransmission consent." "Must carry" legally requires the cable company to carry the broadcast station's signal. "Retransmission consent" allows broadcasters to charge cable companies to carry their signal.

At press time, two broadcast stations which Jones Spacelink does not now carry have opted for "must carry." They are WWTO—LaSalle, IL and WYIN—Gary, IN. In accordance with this "must carry" law, Jones Spacelink plans to add these services to Limited Basic, effective 9/1/93. They are included in the channel lineup below. Like all cable companies, Jones Spacelink has a finite number of channels on which to offer programming. This means that if any additional broadcasters not in our lineup now opt for "must carry," Jones Spacelink may have to drop current cable programming in order to make room for these stations.

Other area broadcasters have opted for "retransmission consent" or payment for carriage of their signal. We believe it is unreasonable for broadcasters to expect cable subscribers to pay for this programming—particularly when it is available at no cost to non-cable viewers. Since our mission is to continue to provide our customers with a full range of television programming, including broadcast channels, Jones Spacelink will continue to negotiate in good faith with those broadcasters who have elected "retransmission consent." If these broadcasters do not allow us to carry their signal, Jones Spacelink will have to drop them from our current lineup effective October 6, 1993.

We will keep you informed of new changes as soon as they happen. Watch for future communications from Jones Spacelink regarding these important issues.

IMPORTANT CABLE CHANNEL CHANGES EFFECTIVE OCTOBER 6, 1993

AURORA

JONES INTERCABLE

Channel Line Up Change Information

The channel line up information that you received in your September Chicago and Cable Guide is incorrect. Please refer to your Previous Guide on cable 12 for the correct information or refer to the current line up included in this mailing.

On October 5, 1993 the following changes take effect on your cable TV line up. These changes are a result of recent FCC rulings regarding Must Carry Transmitters, retransmission consent issues and channel space availability.

We will be adding WWTO, UHF channel 35, WEHS, UHF channel 50 and WJVS, UHF channel 62 to channel line as result of federal "Must Carry" rules.

We will be moving WYCC, UHF channel 20 from cable channel 15 to cable channel 12. Also, we will be moving WPWR, UHF channel 50, from cable channel 14 to cable channel 8. WXFV, low power UHF, channel 30 will be moving from channel 8 to channel 22.

C-Span 1 will move from channel 41 to channel 21. The Prevue Guide will be moving from channel 12 to channel 27. C-Span 2 will move from channel 32 to channel 48. The FYI Cable Advertising channel will move from cable channel 10 to channel 47 when Bravo is not on the air and to channel 4 from 11:00 PM to 8:00 AM and 3:30 PM to 6:00 PM. HSN 2 will no longer be carried due to channel space availability. Superstation WTBS will be moving from channel 31 to channel 23. HSN 1 will move from channel 48 to channel 41.

The Disney Channel will be moving from channel 21 to channel 29, HBO will be moving from 22 to channel 30, Cinemax will be moving from 23 to channel 31. The Movie Channel will be moving from channel 29 to channel 32 and the Playboy channel will be moving from channel 30 to channel 0.

For a channel reference card and a channel to channel comparison of your current line up versus your new line up, refer to the following information.
